### Staff Report

#### ISSUE

The Zoning Board of Adjustments shall consider approval of a variance to allow the applicant and property owner, Kay Martin, to construct hand rails along an existing front yard deck extending a maximum of 54 inches above the finished grade exterior elevation for the property located at 218 N 2<sup>nd</sup> St., legally described as Lots 1 & 2, Block 62 La Porte (case #20-93000002). The variance request exceeds the requirements of Section 106-771 (2) of the City of La Porte's Code of Ordinances, which limits the finished grade exterior elevation to no more than 12 inches.

#### DISCUSSION

##### Applicant's Request:

The applicant seeks approval of variance request #20-93000002. The variance would allow the applicant to construct railings along a front yard deck, extending a maximum of fifty four (54) inches above finished grade exterior elevation. The attached Exhibit A is a copy of the application and a letter of explanation submitted by the applicant.

##### Subject Site:

The subject property is a 0.143 acre tract of land located at 218 N 2<sup>nd</sup> St. and legally described as Lots 1 & 2, Block 62 La Porte.

##### Notice of Public Hearing:

Staff finds that the public hearing notification requirements were performed in accordance with Section 106-194, including the following: notice in a newspaper of general circulation no more than 10 days prior to the hearing; written notice mailed to owners of real property within 200 feet of the site within 10 days of the hearing; 2 signs were posted on site within 10 days of the hearing. In accordance with state law, notice of the public hearing was also posted at City Hall and on the City's website.

##### Background Information:

The site area is currently zoned R-1, Low-Density Residential and has an existing single-family home on-site. The following table summarizes the surrounding zoning and land uses:

Zoning Board of Adjustment Meeting  
August 27, 2020  
Variance #20-93000002

	Zoning	Land Use
North	R-1, Low-density Residential	Single-family homes
South	R-1, Low-density Residential	Single-family homes
West	R-1, Low-density Residential	Single-family homes
East	R-1, Low-density Residential	Single-family homes

Applicable Code Provisions:

Section 106-771 (2), stipulates the residential yard requirements. The following is an excerpt from that section as applicable to this variance request (see highlighted):

***Terraces, decks, patios, etc. Terraces, decks, patios, or similar features, provided they do not extend more than one foot above the height of the exterior finish grade elevation, or to a distance less than two feet from any lot line, or encroach upon any utility easement. Further, pools shall not be considered as an encroachment on or in a front yard, provided that such pools are located in a front yard adjacent to Galveston Bay, and provided further that such pool does not extend more than one foot above the exterior finish grade elevation, or to a distance less than two feet from any lot line or encroach upon any utility easement.***

\* This height shall be measured as the code reads\*

Analysis:

The applicant seeks approval of a single variance that would allow for the construction of handrails at a maximum of 54 inches above finished grade exterior elevation on an existing front yard deck. This height is 42 inches higher than what is permitted by the City of La Porte's Code of Ordinances.

Section 106-192 of the Zoning Ordinance states that the term "variance" represents a deviation from the literal interpretation of the code approved by the Board subject to the fact that enforcement of the provisions of the code would cause an unnecessary hardship because of circumstances unique to the subject property. The Board is authorized to grant a variance when the Board finds that a number of criteria are met. The following table outlines those criteria and staff's analysis of those criteria:

Zoning Board of Adjustment Meeting  
 August 27, 2020  
 Variance #20-93000002

Criterion:	Staff Finding:
a. That the granting of the variances will not be contrary to the public interest	Granting this variance would not necessarily be contrary to the interest of the surrounding single-family homes.
b. That literal enforcement of this chapter will result in unnecessary hardship because of exceptional narrowness, shallowness, shape, topography or other extraordinary or exceptional physical situation unique to the specific piece of property in question. "Unnecessary hardship" shall mean physical hardship relating to the property itself as distinguished from a hardship relating to convenience, financial considerations or caprice, and the hardship must not result from the applicant or property owner's own actions.	The literal enforcement of this chapter would not generate an unnecessary hardship as described in the zoning code.
c. That by granting the variance, the spirit of this chapter will be observed.	The requested variance does not meet the threshold for "unnecessary hardship".

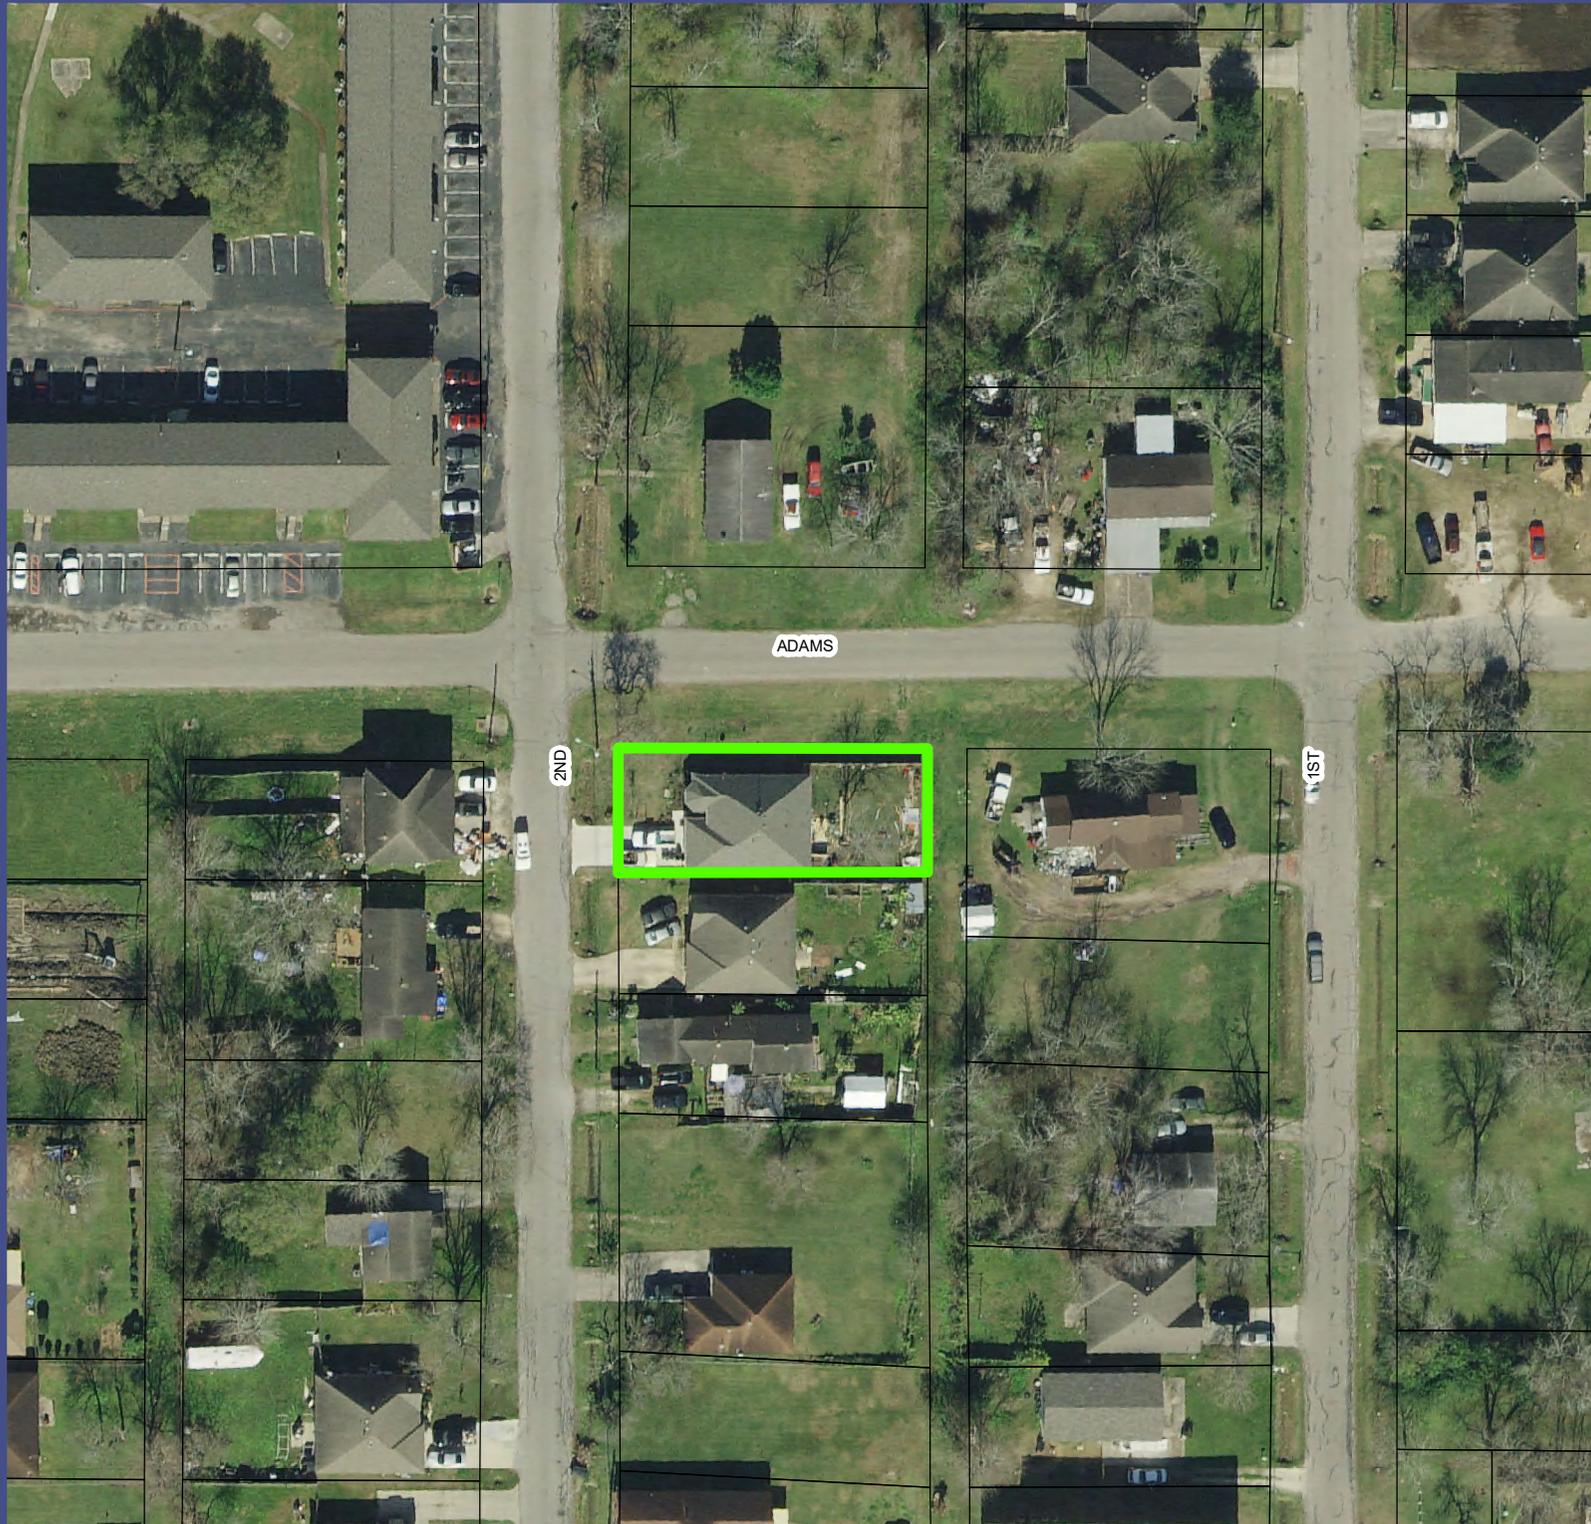

Appeal Procedure:

**Sec. 106-196. - Appeals from the board of adjustment.**

Any person or persons, jointly or severally, aggrieved by any decision of the board of adjustment, or any taxpayer, or any officer, department, board, or bureau of the city may present to a court of record a petition for a writ of certiorari, as provided by V.T.C.A., Local Government Code § 211.011, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within ten days after the filing of the decision in the office of the board of adjustment.

REASON(S) FOR VARIANCE REQUEST

1. I am 60 yrs old female. got severe arthritis and knee problems and high risk of falls. My scoliosis makes it hard for me. I need hand rails around my deck for my safety and the safety of others.
2. The porch gets so small that why we build a deck on the front part of our house we would like to screen it in and put a roof due to weather conditions.
3. So I asking I really need hand rails for my safety around my deck. And hope you all let me put a roof and screen it in for weather conditions.
4. Thank you. The deck did pass inspection.
5. There some Eagle Scout Group said they would build my hand rails. But they can't do this before Oct 31. Their badge time will run out. They would be getting their badges and thank you from a hand lapped person that really needs the hand rails. And rest of the deck completed.

The hand rails or the screen

March would be attached to

Address of the mayor

TO: IAN Clowes

To: The Honorable (Mr. or Mrs. \_\_\_\_\_):

My husband and I are making our appeal to you on our behalf for a variance in the City Code. We are citizens of LaPorte, by choice. Six years ago we moved to our first home at 218 N. Second Street. During the ensuing time my health deteriorated. I am now on a walker and have advanced arthritis making it difficult, if not impossible, to get out my home through the front door, the loveliest view. This, along with scoliosis, makes it a danger for me to step without adequate handrails and the deck is a danger to me without railings. Both steady me and would keep me from falling. Unfortunately, these are against city codes.

We are asking for your support to have a variance in the city code to provide these necessities. You are welcome to visit our home, take pictures of the outside, and to talk with us personally. We are taxpayers nor are we in arrears. With this variance you will be helping many others in our city with handicapping conditions. We know by reputation that you are a compassionate, fair-minded person. We just need your "friendly ear."

With Respect,

Lee and Kay Martin
